

Tim K.

CSUN Student

Computer Science student with experience in information technology, networking, technical support, and software development.

Work Experience

IT Operations Supervisor

The Walt Disney Company

2019 - Present

Supervises daily IT support operations and provides technical assistance for computer systems, network equipment, printers, and other technology used by employees.

Responsibilities:

- Supervises a small team of IT support technicians.
- Provides Tier I and Tier II support for hardware, software, and network issues.
- Manages and tracks computers, printers, and other IT equipment.
- Coordinates installation, maintenance, and replacement of technology equipment.
- Develops troubleshooting procedures and technical support documentation.

Tier I IT Support Technician

Northrop Grumman

2016 - 2019

Provided entry-level technical support for employees experiencing computer, software, account, printer, and basic network issues.

Responsibilities:

- Responded to user support requests and documented incidents.
- Troubleshot Windows computers, printers, and common software issues.
- Assisted users with account access and password-related problems.
- Installed approved software and configured replacement computers.
- Escalated more complex technical issues to Tier II support staff.
